

Guard Tour 2000

Guard Patrol System

GUARANTEED TOUGH

The GS2000 is so tough and guaranteed waterproof it comes with a 3 year warranty! If one should ever leak or break simply return it to us and we will replace it free of charge.

RELIABLE

The GS2000 has been designed with no moving parts. As such this provides unparalleled reliability.

TECHNICAL SUPPORT

FREE Unlimited technical support for the entire lifetime of the GS2000.

PROFESSIONAL

Use the Guard Pro Software to produce custom reports including multiple site patrols, exception reporting (indicating missed or late check points) and statistical information per site or operative for Key Performance Indicators (KPI) reports.

APPLICATIONS

- Security Personnel Patrolling
- Building Maintenance
- Remote Equipment Inspections
- Asset Management

FEATURES

- Robust Baton Metal Housing
- Contactless Secure Reading
- 100,000 Event Memory
- IP66 Water Resistant and Shock Proof
- Single Button Operation for Scanning
- LED Light & Buzzer Indicators
- Sleep Mode for Power Saving
- Custom Branding

The new **GS2000** is a durable Guard Tour Data Collection Terminal, based on RFID technology; it helps you watch over your employees whose working duties require moving from place to place, such as Security Guard Patrolling, Remote Equipment Inspections, Property Maintenance and Asset Management.

If your current patrol system constantly fails and you cannot prove accountability, you risk losing client's good faith PLUS possible disputes over invoicing. Ineffective, badly designed guard patrol readers or plain old abuse by the operator are usually the root cause; however many companies continue to spend huge sums repairing or replacing flawed equipment.

The GS2000 is a one off cost; with free life time technical support, 3 years product warranty and with the free Guard Pro software there are no hidden costs!

Its metal and rubber construction is designed for heavy use in the most difficult environments. It has been designed to have a high resistance to rough handling and accidental damage.

The GS2000 is ideal for multi-site patrols. The unique Check Points allow multiple sites to be covered by just one data recorder. Once downloaded reports can be created for each site separately.

The GS2000 Starter Kit is provided with:

- GS2000 - Handset Unit
- GS2000U – Base Station Unit (USB)
- DISK5215 – Guard Patrol Software
- GS2000BC – Belt Clip
- GS2000PH – Belt Pipe Holster
- GS2000TAG32(10) – Patrol Check Point

Guard Tour 2000

COMPLETE SECURITY SOLUTIONS

Access CCTV has carefully planned and balanced a complementary range of products and services. We are committed to technical excellence. This is reflected in both the services we offer and in the company personnel; who are selected for their expertise and experience and their adherence to high standards.

ACCESS CONTROL

The systems we install will keep your buildings, staff and assets secure. From one door up to hundreds of doors across multiple sites, we have a solution to suit your needs.

CCTV

CCTV Recording with Motion Detection, Remote Talk Back and Viewing from a mobile phone. We specialize in Armoured and Covert CCTV cameras.

BARRIERS, GATES & TURNSTILES

We provide a wide range of physical security products which can be custom built to your specifications.
